

California OES Weather Threat Briefing

Sunday, December 30, 2018
9:00 AM PST

Day 1 Gusty north wind Inland and Southern Region.
Very cold temperatures.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

Key Points

12/30/18 - 01/05/19

Sunday - Tuesday

- Winds out of the north will continue for Inland Region and Southern Region with gust 40 to 50 mph today. Foothills and passes could see gusts to 60 mph. Impacts include hazardous driving condition, airborne debris, downed tree branches, potential power outages and periods of hazardous fire conditions due to low humidity and gusty offshore wind.
- Mostly dry conditions with sunny skies will prevail – the exception being extreme Northern CA where there is a chance for light precipitation Sunday. There is also a very slight chance of light precipitation over extreme southern region Monday. Any rain that falls will be beneficial rains with no impacts expected.
- Some of the coldest temperatures of the season are expected over the next few days with impacts to vegetation, unprotected plumbing, and sensitive populations.

Wednesday - Saturday

- No significant weather or water impacts expected at this time.

California Weather Impacts
